

INVASION OF HUNGARY BY RUSSIA BEGUN

TONOPAH'S MONTHLY PAYROLL IS NOW RUNNING INTO VERY HIGH FIGURES

The magnitude of Tonopah's monthly payroll is little appreciated in the outside world and is not realized at home. Here follow some very conservative figures, they having been so pronounced by people in a position to know. On Saturday pay checks were issued to 1,575 persons employed by the operating companies in mines, mills and offices, including managers, superintendents and others in authority. No one received less than \$4 a day, while the salaries of others ran up to \$1,000

a month, and possibly more. A large number of the recipients of these checks are paid \$4.50, \$5, \$5.50 and \$6 a day, but conservatively, very conservatively, the average may be fixed at \$4.50 a day. There were 31 working days in March, hence the number of shifts may be stated as 48,825. At the average pay of \$4 a shift this amounted to \$219,712.50. This does not include the payrolls of the railroad, power, telephone and other companies and private concerns.

(By Associated Press.)
NEWPORT NEWS, April 12.—How the German merchant raider Kronprinz Wilhelm, which arrived Sunday, was chased by British warships Saturday night, barely escaping capture, is related by officers of the British merchant vessels destroyed by the Wilhelm in the South Atlantic.

She left New York in August and has been at sea 255 days. She sank fourteen ships, valued at \$7,000,000 and took nearly one thousand prisoners. It is attributed to the speed of the Wilhelm that the warships failed to overtake her. The commander asked for time to survey the vessel, and take on provisions and coal.

DELICIOUS REFRESHMENTS EN-
JOYED AFTER THE BUSI-
NESS MEETING

The regular meeting of the Tonopah Woman's club was held Saturday, April 10th, at the home of Mrs. F. J. Cavanaugh, with a large attendance of members. During the business session it was reported that Mr. Julius Smith has kindly consented to feature a certain times each month moving picture films of particular interest to children.

In accordance with an appeal from the Woman's Peace party, it was decided to co-operate with them in the dissemination of peace ideas by devoting a portion of the program at certain meetings to the study and work of the organization.

Owing to delay in obtaining the course of study in domestic science, which was part of the work outlined for the year 1915, the club will take up the reading of articles relating to the subject beginning with "Increase in Home Efficiency" until such time as the course of study can be obtained.

Senator Key Pittman has kindly offered the use of twelve lots at the south end of University street for a playground site and the playground equipment now located opposite the school house will be moved as soon as possible to the new location. PLACER PROPERTY IS MAKING GOOD

TWO MONITORS WORKING ON
DAVE LLEWELLYN'S GROUND
AT ROUND MOUNTAIN

Working fourteen men and keeping two monitors playing, D. S. Llewellyn is taking out considerable quantities of placer gold at Round Mountain. He is using the flow from Jefferson, Slaughterhouse and Shoshone canyons.

Last season Mr. Llewellyn made a good extraction from the ground, one of the nuggets being valued at \$240. This and other gold from the placer is on exhibition at the Panama-Pacific exposition. He has now stripped about fifteen acres of his ground, out of a total area of 310 acres. There is no overburden, but the average depth of earth and gravel, which is four feet, all contains gold. He estimates that it is now running \$1.20 to the yard. In washing the detritus away from the bedrock he has exposed a number of stringers and two ledges, each about twelve feet in width. They have not yet been prospected. There is enough water available to make the hydraulic season last about four months.
